SLT: Slotted Slip Track

- Special Sizes Available, Contact Customer Service For Details
 - Available in Galvanized Steel (GS)
- (See Our Materials Guide For Details, Page 40)

Our Slip Slotted Track is a deflection track with slots in the legs to allow for vertical deflection. Giving you head of wall vertical deflection and the added horizontal drift movement. The top of the stud floats within the track legs. This connection allows for vertical movement without transferring the loads to the wall studs themselves.
