OWC: Offset Water-Resistant Expansion Channel - 2 pc.

- Superior Moisture Protection™
- Available With 1/8” Weep Holes or No Holes
- SolidGround® Design For Moisture Protection
- Available in Copper (C), Galvanized Steel (GS), Bonderized (BN) or Galvalume® (GVM), Zinc (Z), Stainless Steel (SS) or Aluminum (A)

The OWC is the same as the EWC except that it offers two leg lengths for situations where 2 dissimilar depths come together. Special “Step” on the attachment leg provides a locator for correct placement of the fasteners and helps keep the molding laying flat on the wall. Matching factory miter-cut, solid-soldered inside and outside corners are available, giving you moisture management confidence throughout the entire installation.
