## SDC: Soffit Drip Corner (#12)

- Superior™ Moisture Protection
- No Weep Holes
- Available in Copper, Galvanized Steel, Zinc, Stainless Steel or Aluminum

SDC when used at a soffit or recessed window opening will divert water out through the solid slope leg. Water will then shed off the 1/4" drip edge. The drip edge channel also provides a tie-in point for the lath. Special drip molding for use at fascia/soffit transitions and recessed windows conditions that provides a drop edge and tie in point for the lath. Matching factory miter-cut, solid-soldered inside and outside corners are available, giving you moisture management confidence throughout the entire installation.

**Note:** Factory curving this item is limited. Please consult the factory for information.
